Objective

Highly **motivated** and **adaptable** BCS Computer Science student at **Deogiri Institute of Technology and Management Studies**, **seeking an internship opportunity** to apply academic knowledge in real-world projects. A **quick learner** and **dedicated team player** with strong problem-solving skills, eager to **contribute meaningfully** to a **dynamic team** while continuously expanding my technical expertise and delivering high-quality results.

Education

- **B.Sc. Computer Science**
  Deogiri Institute of Technology and Management Studies
  Expected Graduation: 2028
- **HSC (Higher Secondary Certificate)**
  SBES College OF Science Maharashtra State Board
  Accomplished in: 2024 – 81.33%
- **SSC (Secondary School Certificate)**
  Holy Cross High School, Maharashtra State Board
  Accomplished in: 2022 – 76.60%

Skills

Technical Skills:

- **Programming Languages:** C, C++, Java(basics), Python (Basics)
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Tools & Technologies:** VS Code, Linux (Graphical)
- **Computer Hardware:** Assembling, Peripheral Devices

Certifications & Course

- **Java Certification Course By Great Learning Academy**
- **Python Certification Course through Great Learning Academy**
- **C++ Certification Course By Great Learning Academy**
- **Data Science course through Infosys Springboard**
- **Angular course through Infosys Springboard**

Projects

1. **Business Analysis & Management System :**
   - Full-stack web platform using HTML/CSS-Frontend, MYSQL-database and PHP for managing and analyzing business data.
2. **Interactive Typing Speed Test Web Application :**
   - Developed a fully responsive and interactive web application that allows users to test and improve their typing speed and accuracy in real time. The application dynamically tracks user input, detects errors instantly, and provides detailed performance statistics upon completion.
3. **All Resources Available (ARA) — Online Skilled Worker & Service Provider Platform :**
   - All Resources Available (ARA) is a full-stack web application designed to connect skilled workers (like electricians, plumbers, tutors, and other service providers) with users seeking on-demand services.
   - The platform provides an interactive user interface, dynamic data handling, and a professional design to simulate a real-world service marketplace system.

Professional Experience

Full Stack Development Trainer & Data Science Trainer

Smartpacey Institute & Technology Solution Pvt. Ltd.

- Delivered training in Full Stack Development and Data Science to students.
- Explained HTML, CSS, JavaScript, PHP, Python and data analysis concepts through practical sessions.
- Designed hands-on coding exercises and guided students in building real-world projects.
- Strengthened communication, presentation, mentoring, debugging, and problem-solving skills.
- Conducted practical coding sessions and project-based learning.
- Mentored students in developing real-world web applications.
- Assisted students with debugging, project implementation, and technical problem-solving.
- Improved communication, presentation, leadership, and mentoring skills.

Internships
